

Gonçalo Sampaio | Software Engineering MSc Student

goncalo20.sampaio03@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Profile

Software Engineering MSc student with a strong interest in frontend, UI engineering and digital product development. I combine software engineering foundations with UI/UX experience to translate requirements and user needs into functional and maintainable applications. I am particularly interested in roles where engineering, product and user experience come together.

Languages: Portuguese (Native) | English (B2 – Cambridge English First) | Spanish (Intermediate)

Technical Skills

Programming Languages: C, C++, C#, Java, Python, JavaScript, TypeScript, Kotlin, Dart, PHP, Haskell, Prolog

Frontend Development: React, SvelteKit, Blazor, HTML, CSS, Tailwind CSS

Mobile Development: Android, Kotlin, Jetpack Compose, Flutter, Dart

Backend Development: Node.js, Java, Spring Boot, C#, .NET, Laravel, REST APIs

Databases & Data: PostgreSQL, SQL, Firebase, Supabase

Software Engineering: Requirements engineering, user stories, UML, software architecture, design patterns, object-oriented programming, functional programming, logic programming, software testing, code review, Agile/Scrum

Tools & DevOps: Git, GitHub, GitLab, Docker, Linux, command-line tools, debugging, build and dependency management

Computer Graphics: WebGL, 2D and 3D graphics transformations, lighting, textures, shaders, animation

UI/UX & Design: Figma, Adobe Photoshop, wireframing, prototyping, information architecture, atomic design principals, OOUX oriented design principals, responsive design interfaces, usability, accessibility, design systems

Additional Technologies: MQTT, OpenStreetMap, OSMdroid, Geocoding

Education

MSc in Software Engineering

2025 – Present

Faculty of Engineering of the University of Porto (FEUP)

Software Engineering Laboratory | Requirements Engineering and Software Modelling | Software Architecture and Design | Mobile Computing | Software Testing Verification and Validation

BSc in Informatics and Computing Engineering

2022 – 2025

Faculty of Engineering of the University of Porto (FEUP)

Software Engineering | Database and Web Applications Laboratory | Databases | Web Languages and Technologies | Human Computer Interaction
